

INCLEMENT WEATHER - HR - Section 2-I

Actions	
It is proposed this policy be removed from the Human Resources Policy Manual, and be placed in the Administrative Policy Manual. This policy does not address Human Resources issues, therefore, it is deemed inappropriate for the HR Policy Manual.	
Substantive Changes	
Additions	Comments
IV.A.4: "employees may register to receive an e-Alert to their cellular phones and/or personal computers."	The e-Alert system has been implemented since the last revision of this policy. Adding this provision provides easier access to inclement weather closing information to all employees, especially if they are not at their work stations.
